SUMMARY

Computer Science Engineering student (2023–2027) specializing in Java and full-stack web development. Designed and shipped two production-grade web applications using Angular, HTML5, CSS3, and TypeScript, with proven performance gains and cross-browser reliability. Completed four internships and one virtual program covering Java Full Stack, Data Engineering, Cloud, and Web Development. Earned the Salesforce Certified Agentforce Specialist credential. Seeking an entry-level Java Developer role to build scalable, high-quality software.

EDUCATION

Swarandhra College of Engineering and Technology, Seetharamapuram

2023 – 2027

B.Tech in Computer Science and Engineering

CGPA: 8.0 / 10.0

Sri Chaitanya Junior College, Palakollu

2021 – 2023

Board of Intermediate Education, Andhra Pradesh

CGPA: 8.36 / 10.0

Z.P.P High School, MP Palem

2021

Board of Secondary Education, Andhra Pradesh

CGPA: 8.8 / 10.0

PROJECT EXPERIENCE

Ekart Website | Angular, TypeScript, HTML5, CSS3

[Live Demo](#) | [GitHub Repo](#)

- Engineered a fully responsive e-commerce web application using Angular and TypeScript, achieving seamless cross-browser compatibility across Chrome, Firefox, and Edge on 5+ device form factors.
- Designed and implemented real-time product listing and filtering modules using Angular component architecture, reducing average search-to-result time by 40% through optimized data binding and state management.
- Developed interactive data visualization dashboards with reusable Angular components, cutting codebase duplication by ~25% and improving scalability and long-term maintainability.
- Optimized asset loading and rendering pipeline using browser profiling tools (Lighthouse), achieving a 30% faster page load time and improving overall application performance score.

Expense Tracker | HTML5, CSS3, JavaScript

[Live Demo](#) | [GitHub Repo](#)

- Built a fully accessible, semantic HTML5 expense tracking interface adhering to WCAG 2.1 accessibility guidelines, improving usability for a broader range of users.
- Implemented a mobile-first responsive layout using CSS3 Flexbox and media queries, ensuring pixel-perfect rendering across screen widths from 320px to 1440px.
- Refactored and modularized CSS architecture to eliminate code redundancy, reducing total stylesheet size by ~20% while maintaining a scalable and maintainable design system.
- Conducted cross-browser testing and validation across Chrome, Firefox, and Edge, resolving all critical rendering issues and achieving zero layout-breaking bugs.

SKILLS

Programming Languages: C, Java (Spring Boot)

Web Technologies: Angular, JavaScript, HTML5, CSS3, TypeScript, Responsive Design, Bootstrap

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Eclipse

Concepts: Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)

CODING PLATFORMS

[LeetCode](#)[CodeChef](#)

ACHIEVEMENTS & CERTIFICATIONS

- Salesforce Certified Agentforce Specialist – Salesforce | *Skills: CRM, AI Agents, Salesforce Platform, Workflow Automation*
- Java Full Stack Developer Virtual Internship – AICTE, EduSkills | *Skills: Java, Spring Boot, REST APIs, MySQL*
- Web Development Internship (HTML, CSS, JavaScript) – ApexPlanet, AICTE | *Skills: Frontend Development, DOM Manipulation, Responsive Design*
- Data Engineering Virtual Internship – AWS | *Skills: Cloud Computing, Data Pipelines, AWS Services*
- Cloud Virtual Internship – AWS | *Skills: AWS Cloud Infrastructure, Deployment, Storage*
